

Abhishek Mistry

Full Stack Web Developer

PROFESSIONAL SUMMARY

Results-driven software engineer with a passion for developing robust, user-centric solutions. Proficient in the MERN stack and adept at mastering new tech stacks. Leveraging cutting-edge Generative AI to drive innovation and automation in software development, I craft intelligent, data-driven solutions for enhanced user interactions.

PROJECTS

1. Tolki | |

React | Express | Node | MongoDB | Socket.IO

- Comprehensive chat application built using the MERN stack and socket.io. Application is responsive for all screen size.
- Features includes Login/Sign-up functionality
- Developed one-on-one and group chat functionality
- Created search functionality for finding users
- Built the ability to create and update group chats
- An individual project built within a span of eight days.

2. AI-Code-Converter | |

React | Node.js | Express.js | Open AI

- Implemented an AI-powered code converter for seamless translation between programming languages, saving developers time and effort.
- Integrated a powerful debugger to identify and rectify code errors swiftly, enhancing code quality.
- Developed an AI-driven quality checker for code analysis, ensuring adherence to standards and best practices.

3. Trendzy | |

HTML | CSS | JavaScript

- Features:- Sign-up / Sign-in functionality, Searching, filtering and sorting functionality on the product page, Cart page, Checkout and payment page, Admin functionalities
- Areas of responsibility:- Product Sorting & Filtering, Cart page & Handle Cart Products, Final Prize & Product Discount
- A collaborative project completed by a team of five members in four days

ACHIEVEMENTS

- **Zoom Marathon Challenge,**
Masai School
