

ABHISHEK MISTRY

SDE-1 · Full Stack Developer · React.js · Node.js · Next.js · NestJS · MongoDB

Rajkot, Gujarat | +91 9512098900 | mistryabhi02@gmail.com | LinkedIn | github.com/abhimistry-07 | abhimistry-07.github.io

PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of experience building production-grade web platforms using React, Node.js, NestJS, and MongoDB. Skilled in end-to-end system ownership, from database modeling and API design to frontend integration and third-party service integration. Delivered internal tools including a WhatsApp campaign engine, complaint management system, digital notice board, and bulk data automation pipelines.

EXPERIENCE

Schoollog (LB MicroTechnologies)

May 2024 – April 2026

Full Stack Developer · Jaipur, Rajasthan

- Built and maintained RESTful APIs using NestJS with JWT-based authentication, role-based access control, and multi-tenant data isolation across all modules.
- Developed reactive frontends using React, TypeScript, and Chakra UI, including reusable components, data grids, dashboards, and complex modal interfaces.
- Integrated third-party services (Meta Graph API, AWS S3, ExcelJS) and applied performance optimizations such as pagination and MongoDB indexing to improve responsiveness.

PROJECTS

Parent Feedback & Complaints Engine

Schoollog

Next.js · TypeScript · Chakra UI · NestJS · MongoDB

- Architected role-based dashboards with an automated rule engine routing complaints to class teachers or departments; built interactive analytics charts using Recharts.
- Separated admin and student gateway controllers to prevent accidental data leaks across user roles.

Digital Notice Board & Communication System

Schoollog

Next.js · TypeScript · Markdown Editor · NestJS · MongoDB · Generative AI

- Built a notice creation platform with Markdown editor support and integrated an AI-powered content generation feature to assist staff in drafting notices automatically.
- Designed a granular recipient-targeting drawer segmenting audiences by categories, classes, departments, and custom groups.

WhatsApp Campaign Management Platform

S-Desk

NestJS · Meta Graph API · MongoDB · Bull · Redis · Next.js

- Built an end-to-end WhatsApp campaign engine integrating Meta Graph API, handling campaign creation, webhook-based delivery tracking, and real-time analytics via MongoDB pipelines.
- Reduced failed-message retry overhead by ~60% using Bull queues and Redis for high-volume async processing.

Library Management System

Library

NestJS · Next.js · Prisma · ExcelJS · Chakra UI

- Built a bulk data pipeline enabling admins to upload, validate, and upsert thousands of library items via Excel.
- Architected the full checkout lifecycle with advanced filtering, server-side pagination, and relational joins across Member, Item, Copy, and Issue History.

TECHNICAL SKILLS

Languages JavaScript (ES6+), TypeScript

Frontend React.js, Next.js, Redux, Tailwind CSS, Chakra UI, Recharts, TanStack Query

Backend Node.js, Express.js, NestJS, JWT / Auth, REST APIs

Databases MongoDB, Prisma, MySQL

Infra & Tools Redis, Bull (Queue), AWS S3, Git, GitHub

Integrations Meta Graph API (WhatsApp Business), ExcelJS / SheetJS, MyOperator

AI / LLM Generative AI Integration, Prompt Engineering

EDUCATION

Full Stack Web Development (Full Time)

Aug 2022 – Oct 2023

Masai School, Bengaluru

Bachelor in Automobile Engineering

Jun 2018 – Apr 2021

Marwadi Education Foundation Group of Institutions, Rajkot
